

Accent OFFICE Password Recovery 6: Total Improvement

September 2011. Passcovery Co. Ltd. announces the release of the latest version of Accent OFFICE Password Recovery 6, professional software for recovering lost passwords to Microsoft Office and OpenOffice files. Total improvements to every aspect of the software deliver top speeds on any computer.

Improvements were made to every module of Accent OFFICE Password Recovery 6, resulting in high-speed searches for hard-to-recover passwords, an expanded list of supported GPU cards, improved compatibility with all known formats, and support for files created in legacy versions of Microsoft Office.

The most important new improvement boosts the speed with which Accent OFFICE Password Recovery 6 recovers passwords to Microsoft Office 2007/2010 files when run on Intel Sandy Bridge and AMD Bulldozer processors. Accent OFFICE Password Recovery 6 is optimized to take advantage of the AVX technology in these ultra-modern processor families to deliver lightning-fast speeds.

In addition, Accent OFFICE Password Recovery 6 continues to make strides in using GPU computing to speed up password recovery. Version 6 supports an expanded list of graphics cards, including the traditional AMD 6XXX family and the APU, also from AMD.

Accent OFFICE Password Recovery 6 isn't just significantly faster; it also supports files created in any version of Microsoft Office and OpenOffice. The update also includes improved compatibility with OpenOffice and Microsoft Office versions 6-97 and brand-new support for Microsoft Office legacy versions 2-5. Now users can recover the passwords to old files created on computers running MS-DOS!

All these improvements guarantee that Accent OFFICE Password Recovery 6 users will see maximum speeds on any computer when recovering the password to any Microsoft Office or OpenOffice file.

Licenses and Pricing

Accent OFFICE Password Recovery 6.0 works on any computer running Microsoft Windows (Windows XP - Windows 7). The cost of a license depends on the number of graphics cards supported and starts at \$60 for a Basic license.
