

## Raising the Bar on Password Recovery Speed

*January 2010. The AccentSoft Team announces the release of Accent OFFICE Password Recovery 3.0, its third generation solution for recovering passwords to Microsoft Office files. Now up to ten times faster, Accent OFFICE Password Recovery 3.0 features support for Microsoft Office 2003, 2007 and 2010 files, including Microsoft PowerPoint files.*

---

Version 3.0 includes an improved algorithm for retrieving hard-to-recover passwords, such as passwords to open Microsoft Excel and Microsoft Word files. Further improvements to Accent OFFICE Password Recovery 3.0 include code optimization to boost speeds, making the program run up to ten times faster than previous versions.

AccentSoft has raised the bar on speed for recovering lost Microsoft Office passwords. Today Accent OFFICE Password Recovery 3.0 is the absolute leader in non-distributed password retrieval tests running on Microsoft Office 97-2000.

Accent OFFICE Password Recovery 3.0 supports even more document formats, including all existing Microsoft Office formats from Office 95 to Office 2010.

NEW! Version 3.0 also supports all Microsoft PowerPoint file formats.

Accent OFFICE Password Recovery 3.0 still has the same simple graphic interface and original powerful tools like Advanced Mask Composer, Advanced Dictionary Manager and Task Creator Wizard. Now faster than ever, Accent OFFICE Password Recovery 3.0 is one of the best solutions on the market for recovering Microsoft Office passwords.

### Proven and Affordable Solution

Accent OFFICE Password Recovery 3.0 runs on all Microsoft Windows operating systems from Windows 95 to Windows 7. A home license costs just \$59,95, and a corporate license costs \$94,95.

### About the AccentSoft Team

The AccentSoft Team has been developing software for the Windows environment since 1999 and specializes in password recovery solutions for popular file formats, digital image processing software and decryption of Microsoft Excel and Microsoft Word files. The company's most well-known products are Accent OFFICE Password Recovery, SnapTouch and its AccessBack service.
